ABOUT GLOBALBRIDGE

Global Bridge is an innovative mosaic company specializing in mosaic wholesale and project. Since 2001, we have been focusing on mosaic business and have export experience with about 20 years. We help clients to grow business by designing, manufacturing, sourcing and developing mosaic products.

Our services provide exceptional value by the quality and innovation on time. Our customers see us as their solution provider. As years' development, now we supply more than 10 thousand mosaic products which almost including each material. Customers can find different products in our 3000 sqm. modern showroom for glass mosaic, ceramic mosaic, stone mosaic, metal mosaic, wood mosaic and shell mosaic. Our products have been widely used in hotel, resort, shopping mall, swimming pool, spa room, garden, bathroom, kitchen and living room.

Today Global Bridge provides a vast array of products, designs, consulting and technical information for the benefit of our customers. We always keep introduce new mosaic products by visiting different countries to study the market and listen to the needs of our clients every year.

Our quality is about more than a certification or the QC process. Quality relies on the attitude to the products consistency and customer's trust. It combines the production speed, flexibility, teamwork and attention to the details. More important, it is about how we view our obligation and how we respond to the needs.

Our mission is to help our clients growing business. Hope we have the opportunity to cooperate and be a win-win partners.

Glass

Glass mosaic is made of quartz sand and melted at 1300 degrees and then pressed by rollers into chips. It can be used in any environment and any place that you want it. Glass mosaic has various size and color, mesh mounted and paper mounted, you can also mix color by your idea. Simple, elegant, beautiful, glass mosaic is flexible and stable in color, easy to install and clean, light in weight, resistant to acid and alkali. Glass mosaic have a great advantage that they can made into mosaic hand cutting and puzzle mural.

Antique Glass

Antique mosaics are made by recycled glass to melt into a glass solution, mixed with pigments, and then flow into the mold to cut and cool. It has a variety of shapes such as squares, rectangles, and parallelograms. The patterns and colors are simple and artistic, and can be combined with different materials such as metal and ceramic to create different effects. In addition, we also have antique glass mosaics with broken edges. The unique shape creates a retro feel. High temperature fired glass can be used in different areas such as bathroom, kitchen, bedroom, etc.

INSTRUCTION FOR MOSAIC INSTALLATION

1. Prepare the substrate
The substrate should be smooth, clean, dust-free and waterproof.
If you take the waterproof measures, remember to do it at least one day in advance. Generally the waterproof coating will completely dry after 24 hours.
If there is dust on the wall, you can apply a layer of varnish first, and dry it after 24 hours.
If there is a socket, remove the panel of the socket and install it after the paving is completed.

2. Prepare for the tools and materials
Materials:
Choose the suitable adhesive and joint mixture.

Tools:

Electric Drill

Notched Spatula

Rubber Float

Rigid Cellulose Sponge

Spacer

Spirit Level

Trowel

Grout Sealer

Diamond Glass Cutting Tools

Wet Saw

3. Installation steps:

After confirming that the wall is flat and ash less, you can start paving.

First, mark the position. If the wall has an inner corner and an outer corner, the horizontal line needs to ensure that the outer corner mosaic is complete and cut the inner corner only. If it is for kitchen backsplash, it needs to ensure that the mosaic at the vertical line which touches the countertop is complete. Please make sure that the quantity of the mosaic is enough. And please be careful to disconnect the power of the outlet before installation.

Second, mixed the adhesive. Adhesive generally sell in barrels. You can use this bucket directly. You should add water according to the proportion on the package. Remember do not add too much water at a time, a little bit is ok. Mortar will be very sticky. You can be mixed with an electric drill or a trowel. Also note that if the place is large, such as a swimming pool, don't mix too much at a time, because the mortar has about four hours of work time, and the outdoor will be shorter.

In addition, prepare a bucket of water, when you rest, you can put the trowel in the water, or it will be difficult to wash. You need to scrape the adhesive on the wall from bottom to top. The first sheet is installed at the side of the outer wall and at the bottom, then up and on the other side. And it is better to use a tile spacer between each sheet to keep the seams from being misaligned. Each patch should be flattened. It can be hammered with a wooden board or compacted with a rubber sheet.

After 24 hours of paving, the joint can be filled. Scraping the adhesive back and forth with a 45-degree angle to ensure that each joint is filled. Note that the tile spacer should be removed before filling the joint. Wipe off the excrescent adhesive with a clean and large sponge. Note that you should wash the sponge before you wipe it each time.

Usually we will prepare a few buckets, to wash most of the grout in the first bucket, then wash in the second bucket, at last it will be very clean in the third bucket. After the excrescent adhesive is cleaned, the grout is almost dry, but there is still a layer of residue on the surface. It should use a clean soft dry cloth to wipe off the surface residue.

1. Preparing substrates

2. Prepare tools

3. Preparing adhesives

4. Apply the adhesives to the substrates

5. Apply the tile sheet

6. Cut off the excess and fit the mosaic edge

7. Fill the edges

8. Apply the grout to the tile sheet surface

9. Use a soft towel to remove excess adhesive on the surface

10. Curing for 24 hours before use

DISCLAIMER

Our mosaic images are product images.

These can differ from the original sheet,depending on personal impressions,bathes,optic,natural stone material variations,monitor color variation and printing methods.

Also the color Random mixed color mosaics images may also differ from the original mosaic sheet, because the paving arrangement is also a random match, can not be exactly the same as the product image we displayed.

We highly recommend to have a look at the original mosaic and to order enough sheets for the installation.
We cannot always guarantee the delivery of the same batch in your reorders.

All information is provided without warranty,errors and omissions expected.

QUALITY MANAGEMENT

Our quality is about more than a certification or the QC process. Quality relies on the attitude to the products consistency and customer's trust. It combines the production speed, flexibility, teamwork and attention to the details. More important, it is about how we view our obligation and how we respond to the needs.

Check the size

Check the color

Checking the overall effect

TEST REPORT

Properties	Test Standard	Requirements	Results
Water Absorption	ASNI A 137.2-2019	≤0.5%	0.10~0.14%
Chemical Resistance	ASNI A 137.2-2019	———	Not Affected
Chemical Resistance Class	ASNI A 137.2-2019	———	Class A
Stain Resistance	ASNI A 137.2-2019	———	Not Affected
Stain Resistance Class	ASNI A 137.2-2019	———	Class A
Thermal Shock Resistance	ASNI A 137.2-2019	Pass	Fully Resistance
Freeze/Thaw Cycling Resistance	ASNI A 137.2-2019	Pass	None of tiles show evidence of degradation,shipping or crack after 15 cycles.
Scratch hardness of surface according to Mohs	EN 15771:2010	———	5
Lead and Cadmium Release			
a) Lead release,in mg/dm²	ASTM C 895-87(2014)	———	<0.1
b) Cadmium release,in mg/dm²	ASTM C 895-87(2014)	———	<0.02
