

GLOBAL BRIDGE PROJECTS

Art Mosaic Mural

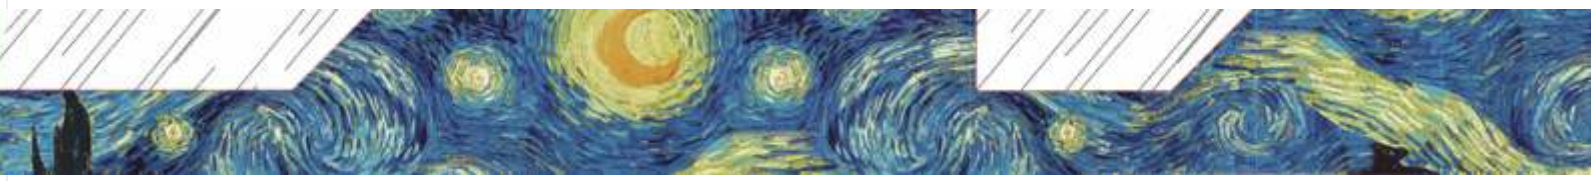

A stone mosaic mural that shows the silhouettes of night view with world-famous landscape.

The night view color is expressed with dark and light brown stone mosaics, like old photos, with bright yellow and white dotted with the lights of the night scene city.

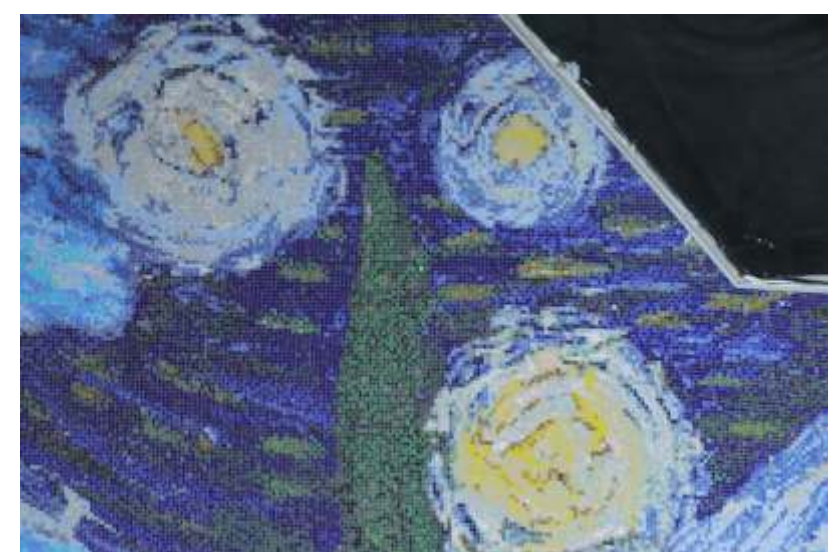

Mosaics to create a shadowy city reflection. The building's brown and light luxury golden glass mosaic expresses the pattern of tall trees. Several elliptical cylinders add radiance and beauty to each other. It is an excellent application that combines the elegance of natural stone mosaics with the gorgeousness of glass mosaics.

Art Mosaic Mural

A mural of butterflies dancing against the background of a blue sky, which is a Mosaic of gradient matrix. The butterfly is a hand-cut Mosaic with a frame. There is a dark projection between the butterfly and the sky. The butterfly looks like flying in the sky from a distance.

Painting Wall Murals

A mural shows the scenery that expresses the prosperous city port. High-level gray architectural silhouette is the key to the mural mosaic. According to the inspiration of the author Mr. Qingquan Yang, we need to keep the Original style and basic structure and main elements of the building. The mosaic adopts the technique of hand-cutting and arranging the mosaics with free style. Bright and dark colors, breaking through the traditional cutting and arranging techniques used to achieve both fashion and romance, but also classic beauty. The effect of the picture shows the charm of the artistic language of mosaic.

Swimming Pool Mural

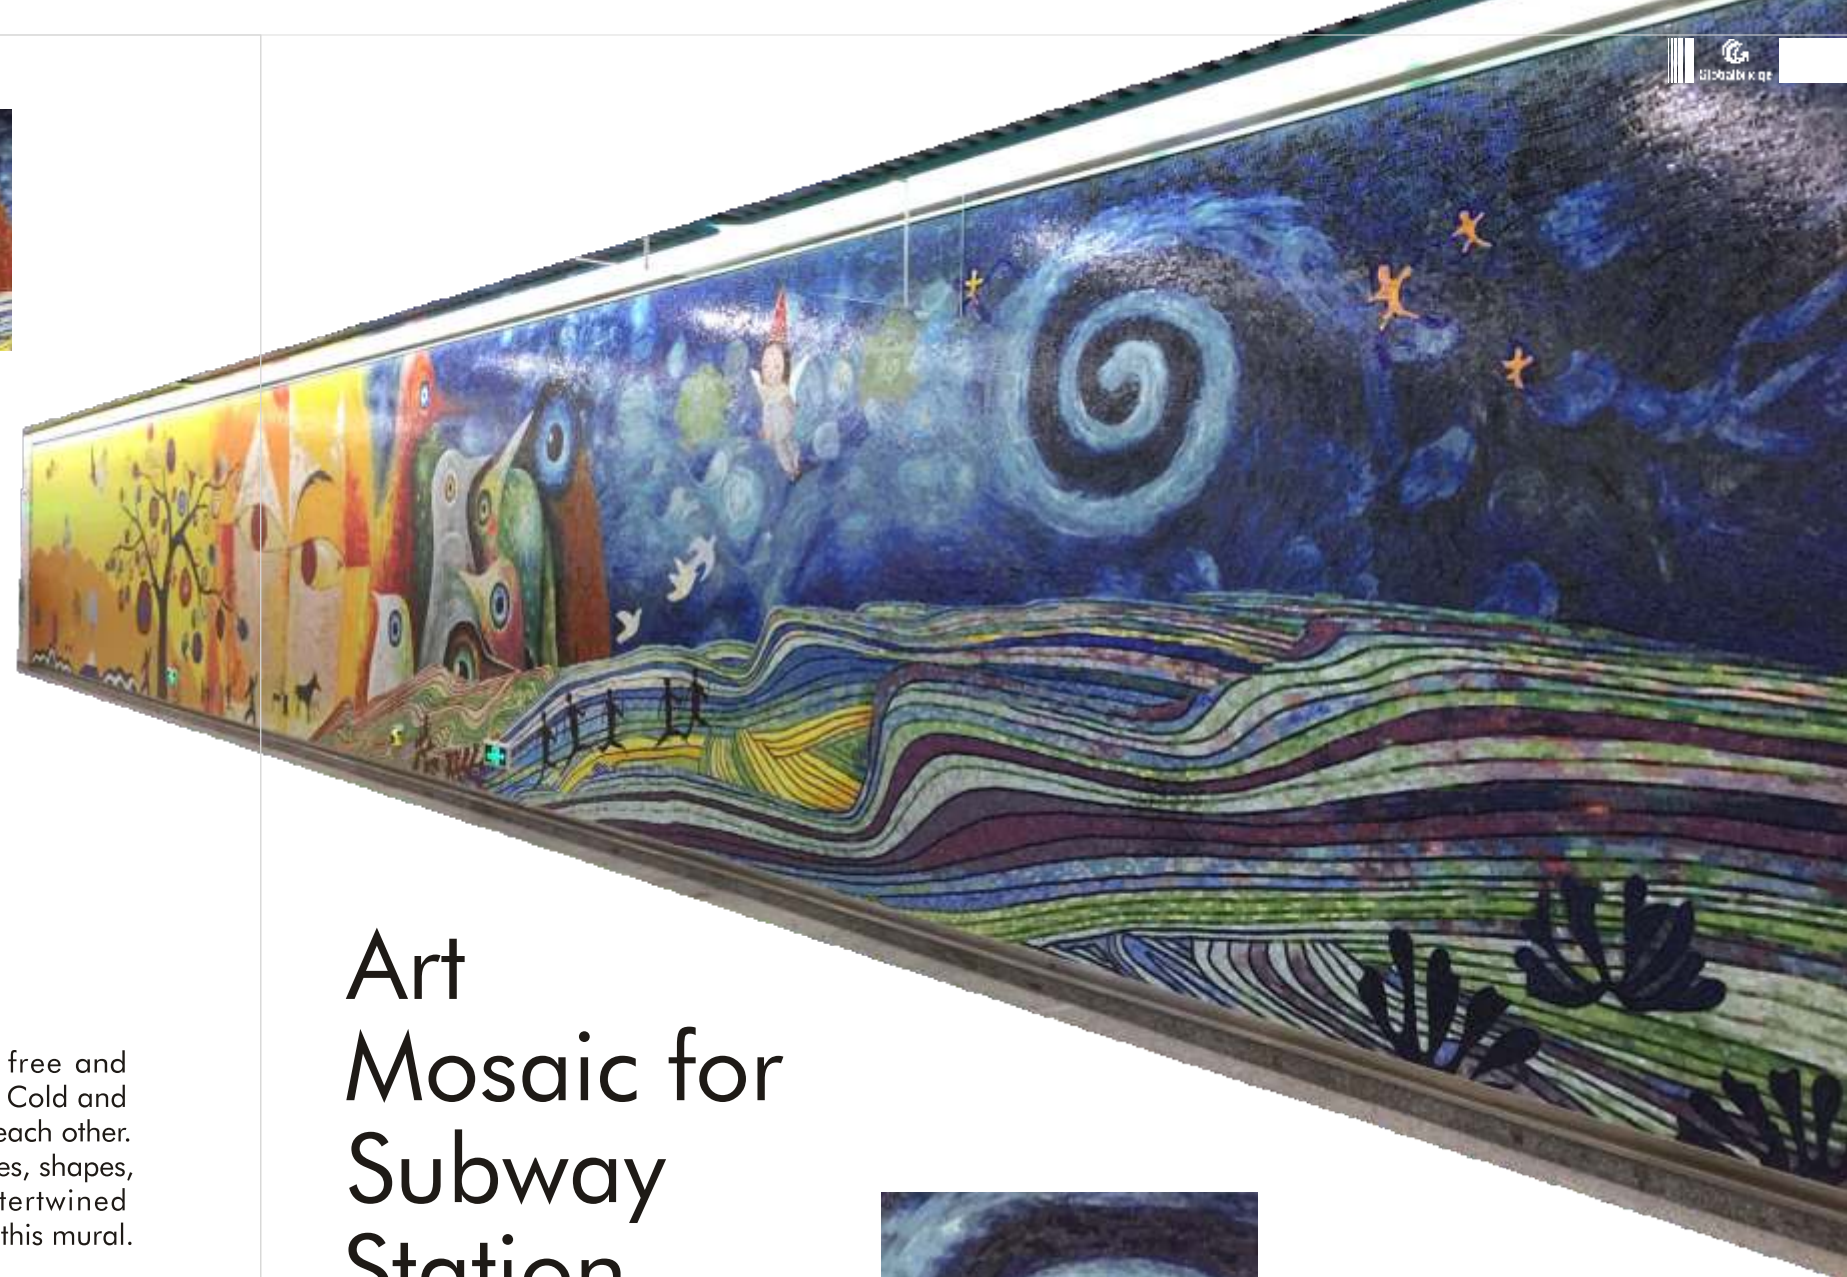

A tree mural designed in the reflection of the swimming pool. The focus of the mosaic design is the rectangular stained glass mosaic arranged into a brick pattern matrix with a tree-shaped pattern. Makes the reflection on the water surface more shadowy, use horizontal rectangular mosaic to arrange vertical tree shapes. We need to repeatedly compare and arrange cleverly when arranging and using colors.

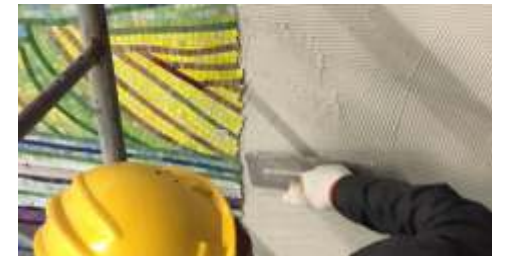

Mosaic Art Work from the artist Mr. Xia Dewu. Composition of the work is free and smooth, and the colors are amazing.

Mosaic production adopts a free and relaxing hand-cutting method. Cold and warm colors are blended with each other. The mosaics are of different sizes, shapes, and colors and gradations. Intertwined together is the characteristic of this mural.

Art Mosaic for Subway Station

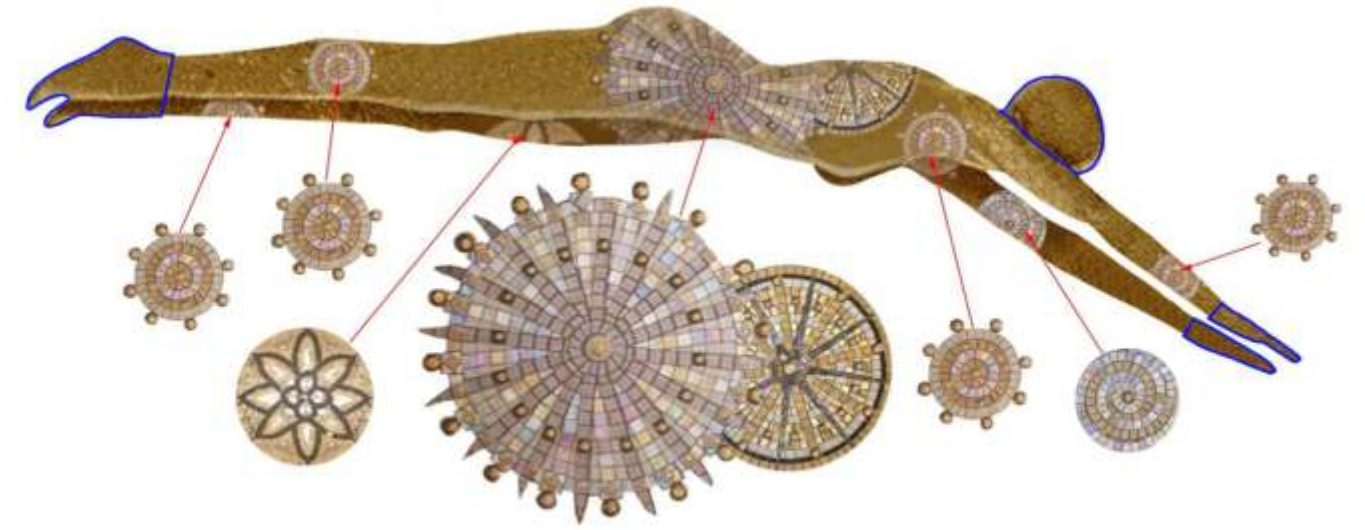

Hotel Bar Background Mural

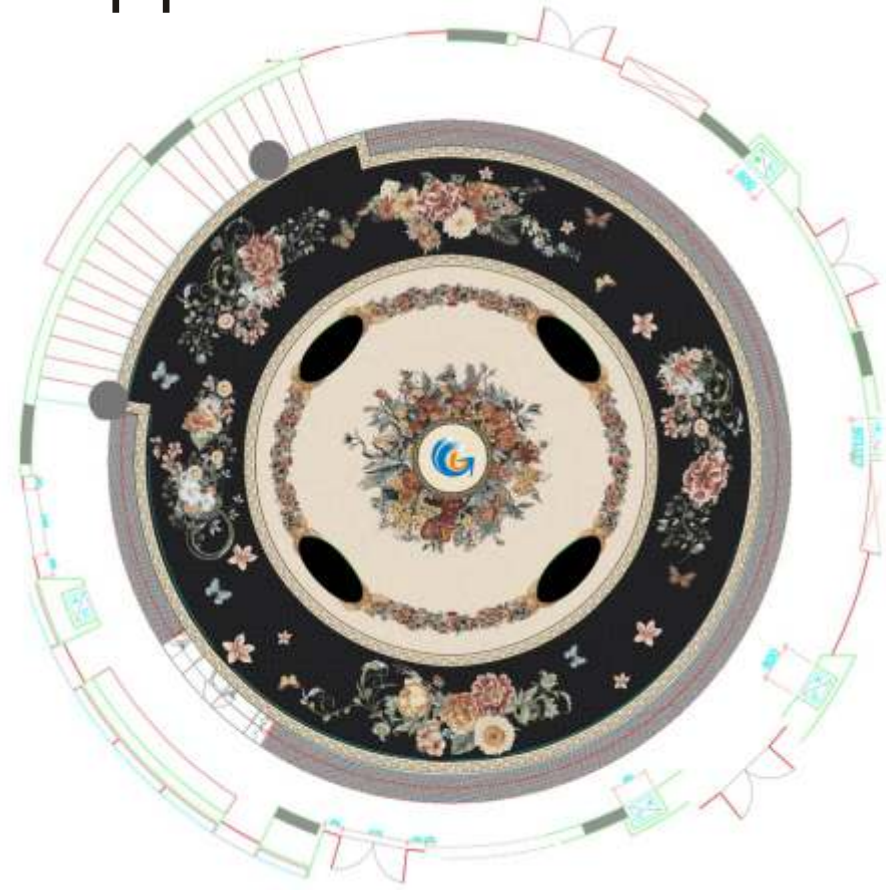

The mural expresses luxurious gold and strong red in interwoven circles. We match the right ratio of gold and red mosaic, also design a suitable arrangement of mosaic sizes. It need efforts for expressing luxury and harmony of whole mosaic art mural of presenting strong interweaving effect to create the atmosphere of the hotel.

This is a clothing show model table mosaic project. The difficulty is how to convert the manually cut and arranged plane mosaic pattern into a special-shaped surface for mounting on the model surface. Our process is to form a local curved paper mold according to the model's curved surface, then unfold the plane panel with the curved paper mold, cut and make the mosaic manually, and then join and paste it on the model surface, The errors generated at the joint shall be cut and joined manually on site to form the overall mounting mosaic pattern of curved surface, which requires patience and meticulous operation and the aesthetic feeling of three-dimensional mosaic decoration.

Integrated Materials and Process Applications of Ground Art Mural

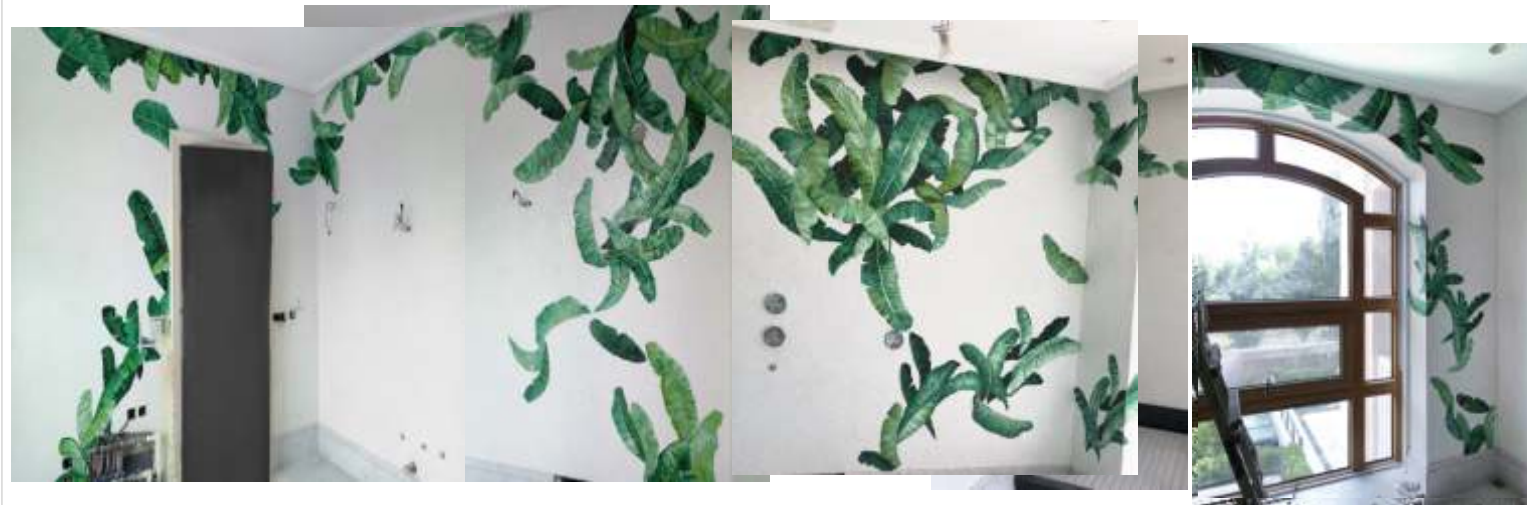

Annular stone mosaic flower wall puzzle. The entire circular floor uses stone mosaic with hand-cutting, water-jet cutting, self-leveling cement. It is a typical case of various materials and multiple processes production and installation techniques application.

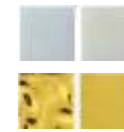

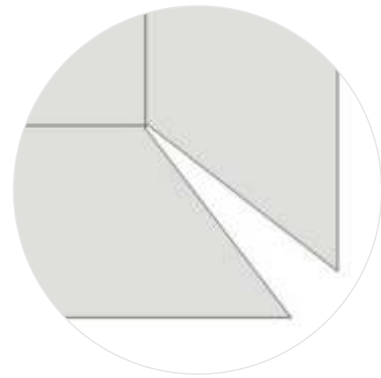

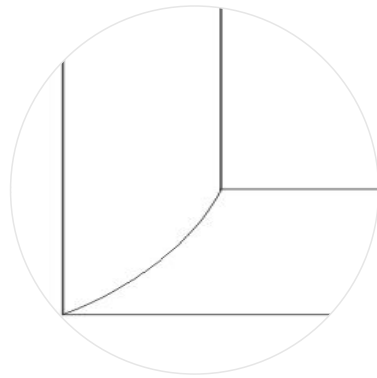

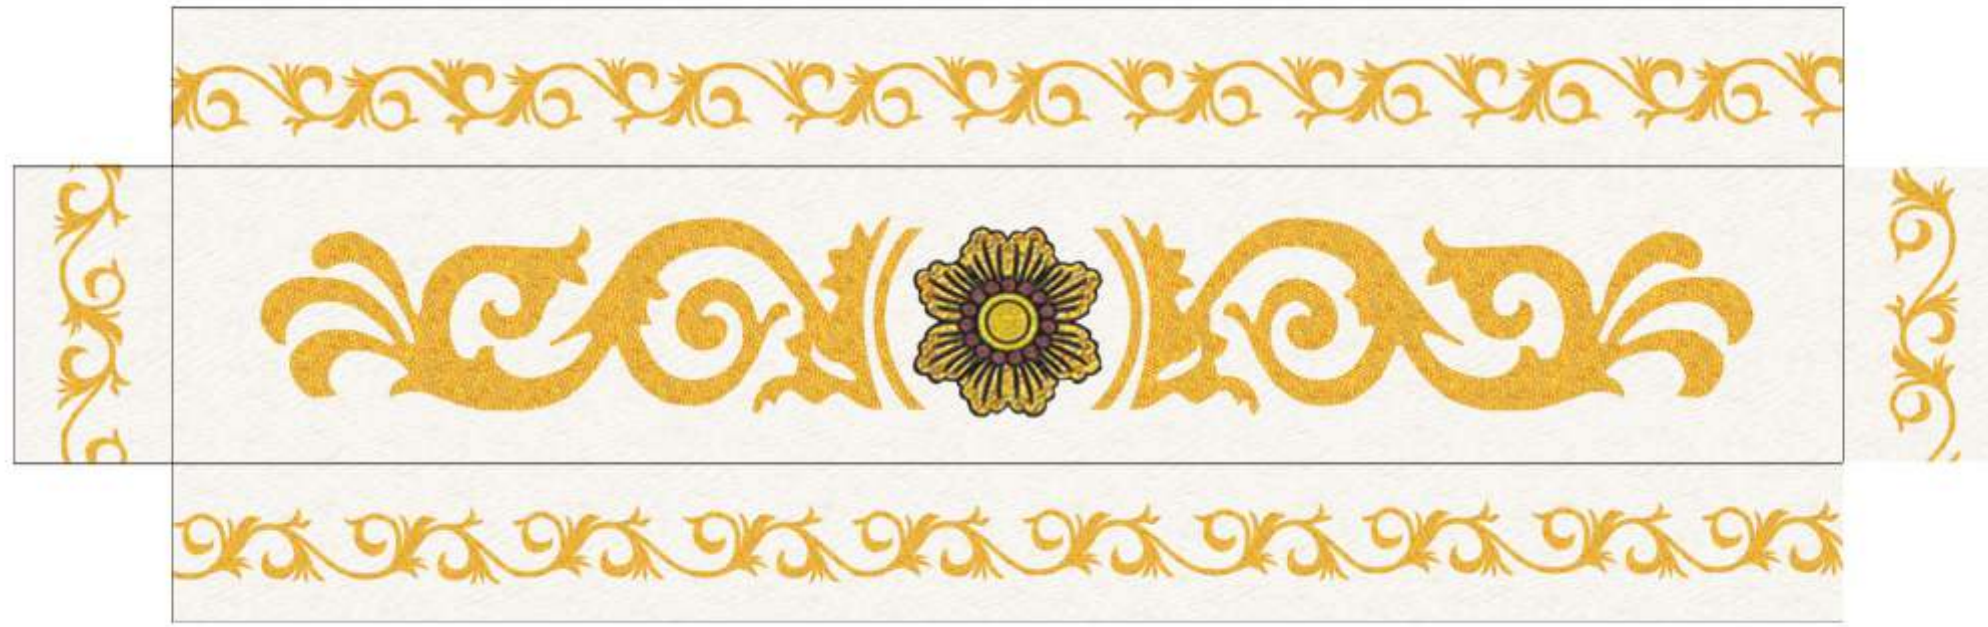

Villa Mural

An artistic mural showing musa leaves dancing with the wind on multiple walls. In addition to cleverly applying multiple shades of green mosaics to express the light and shade changes of the musa leaves, it is also an irregularly circle of the white background color. The pattern is cut and arranged by mosaics to express the dynamics of the whole picture. It is a good try to present theme of the picture with the patterns arranged in single color mosaics. Of course, the organic connection of the mosaics on each wall facilitates on-site construction, which is also the unique feature of this mosaic mural.

Camber Ceiling Mosaic

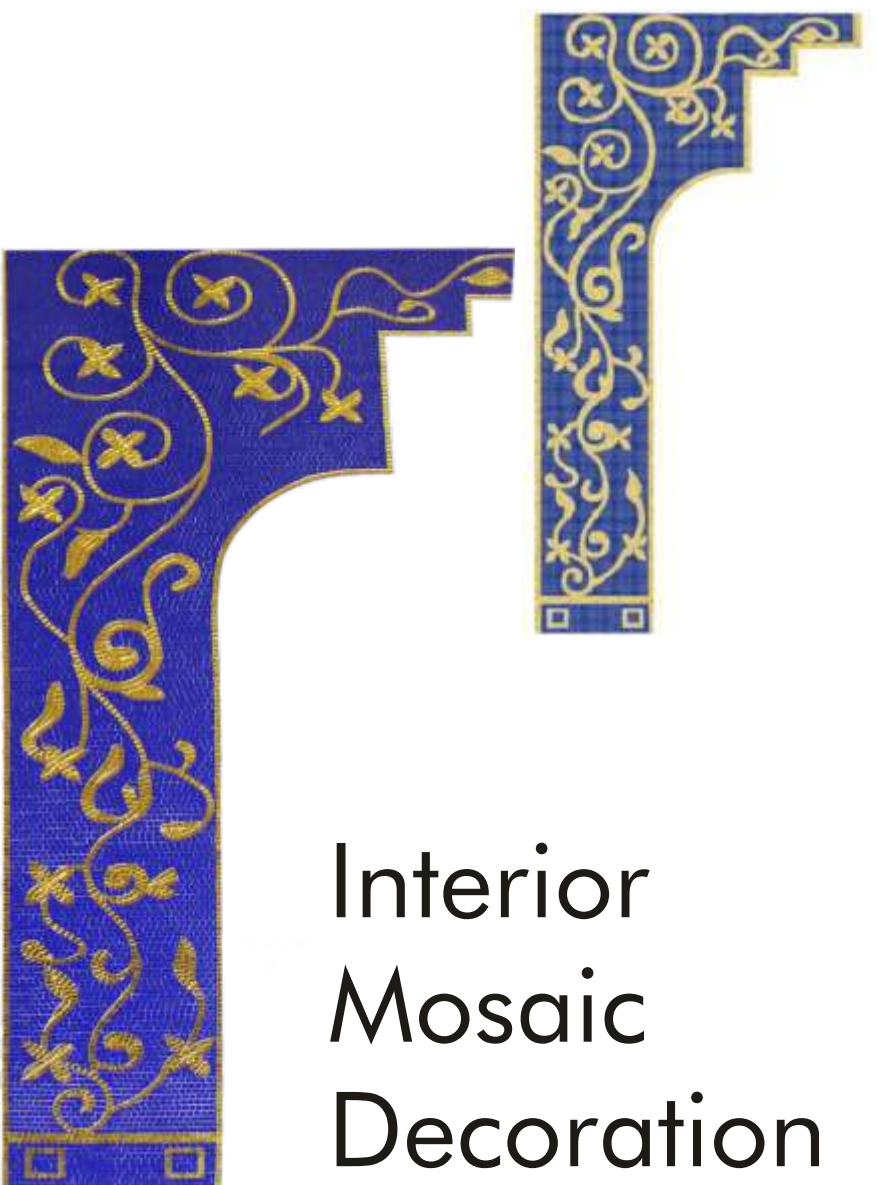

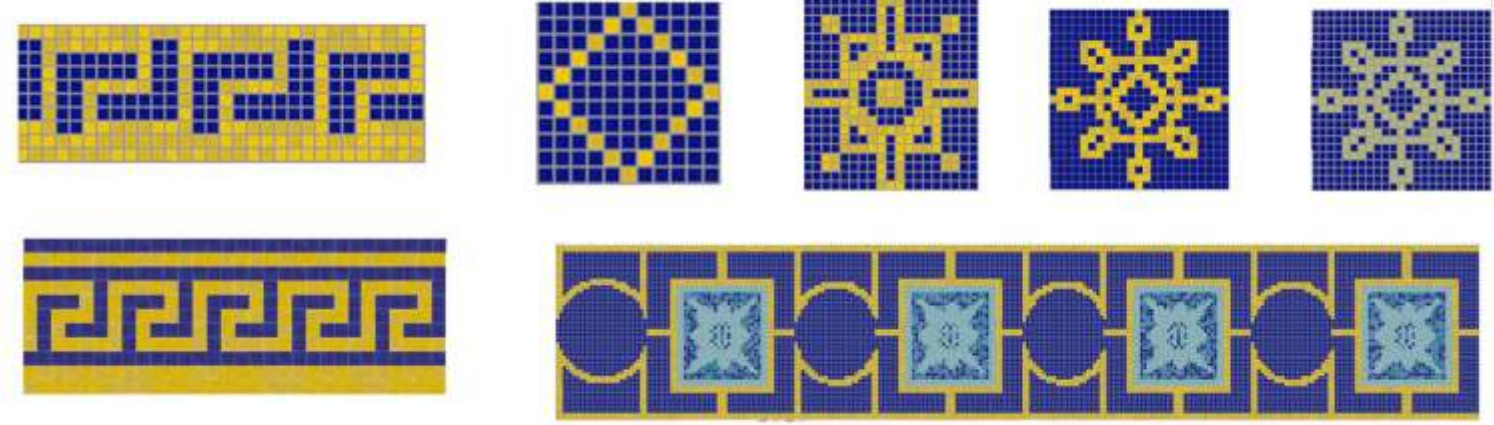

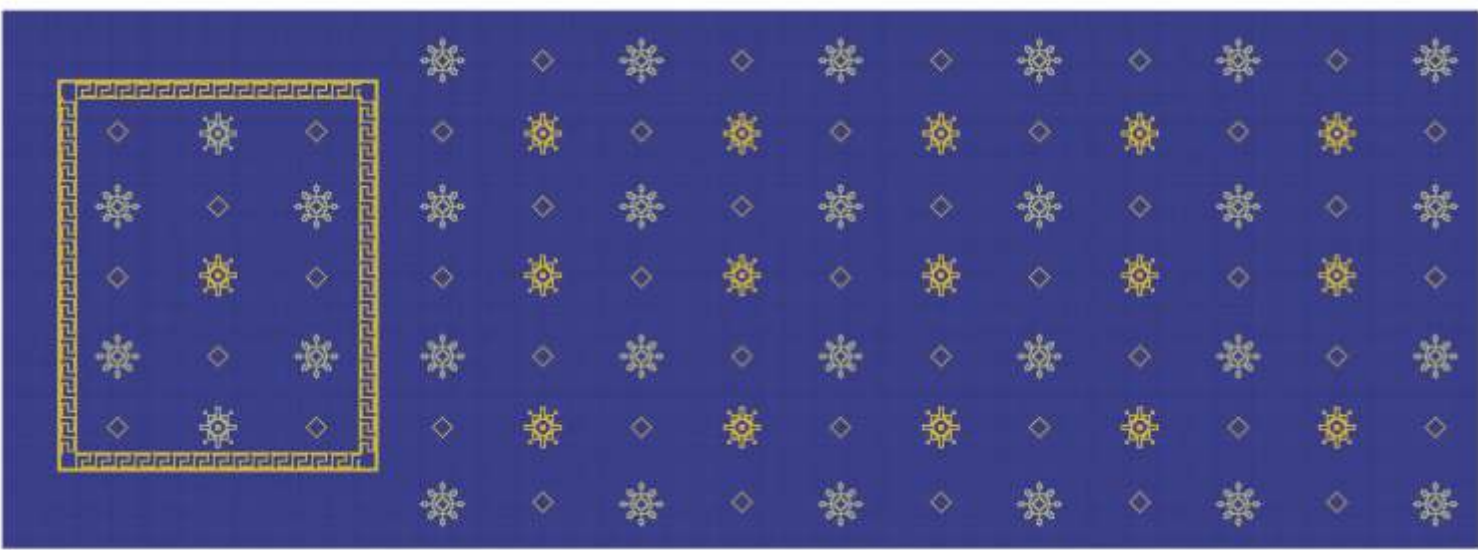

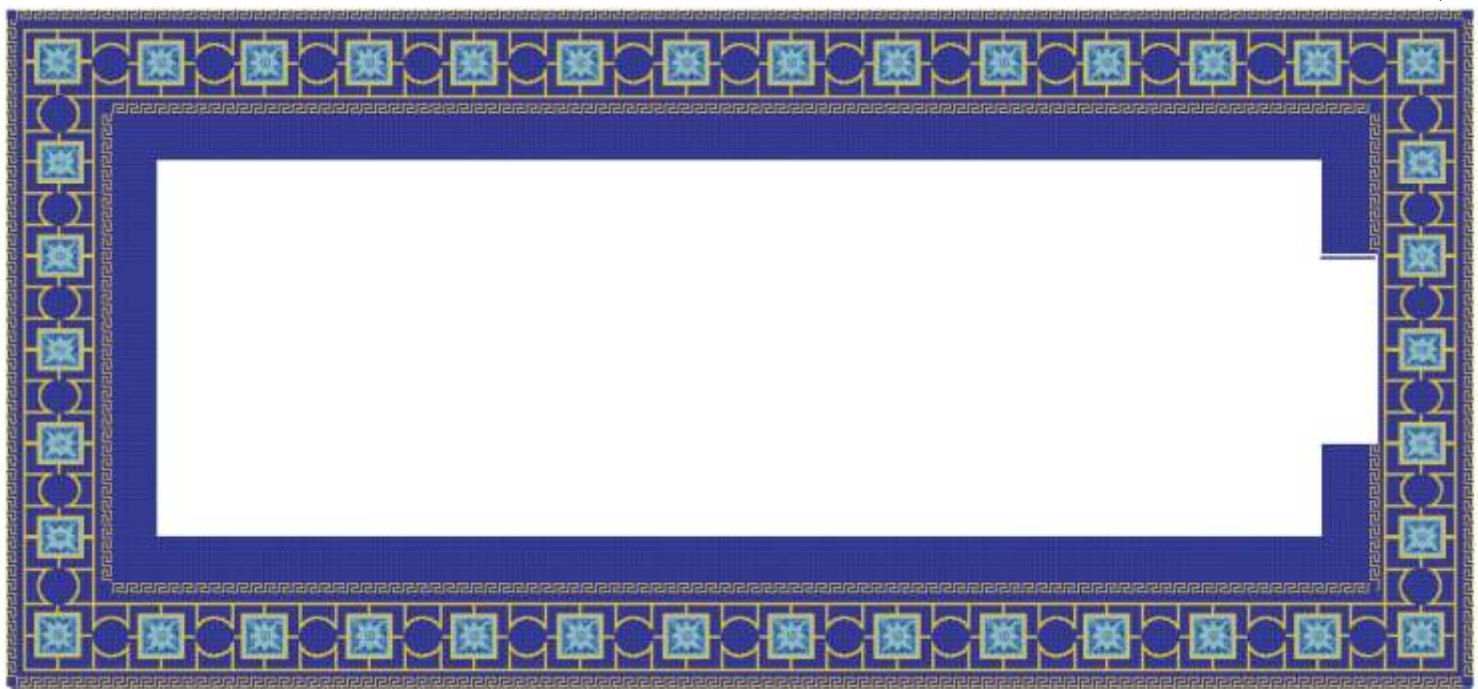

Camber Ceiling Mosaic

The difficulty of this ceiling mosaic is mosaic production of four curved corners is basically consistent with the size and curvature of the arc on site. We combine the on-site paper mold with design drawing calculation to locate the arc corner joint line.

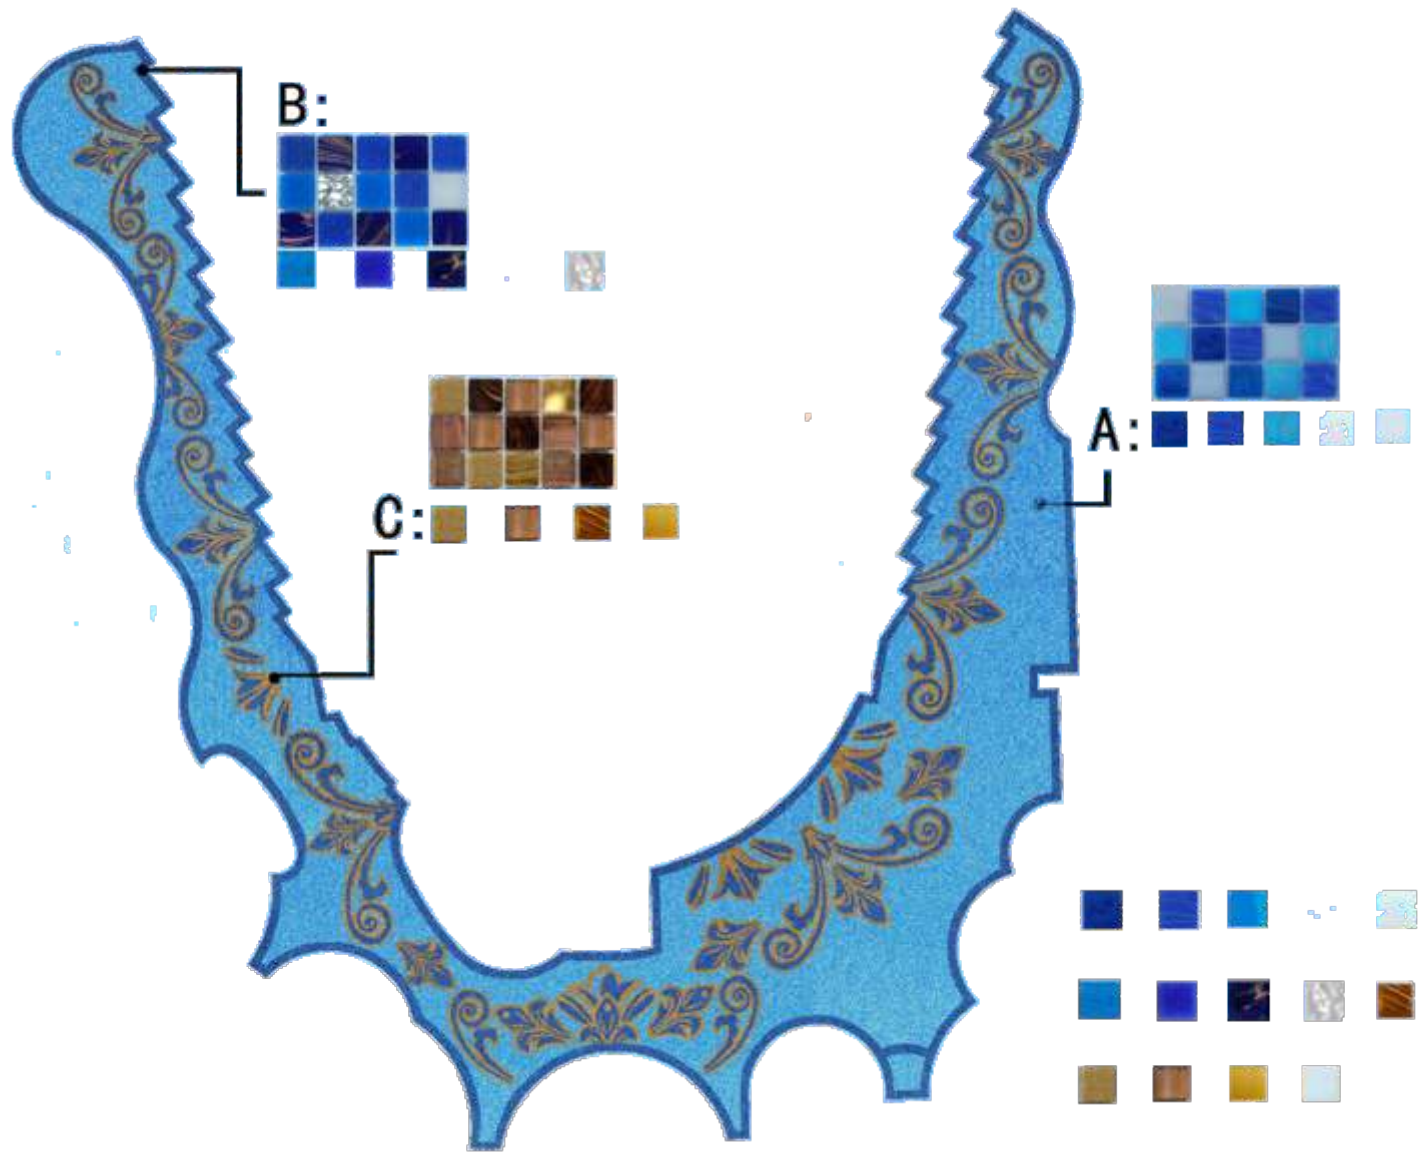

Interior Mosaic Decoration

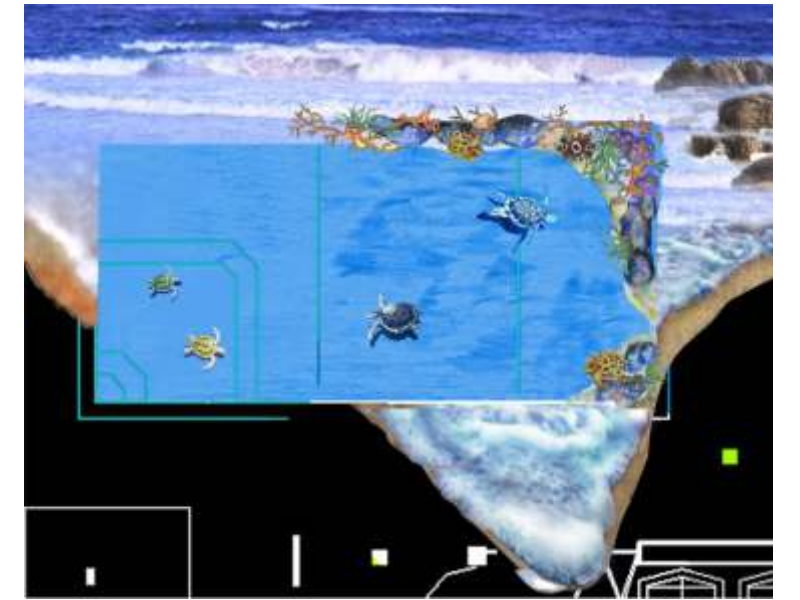

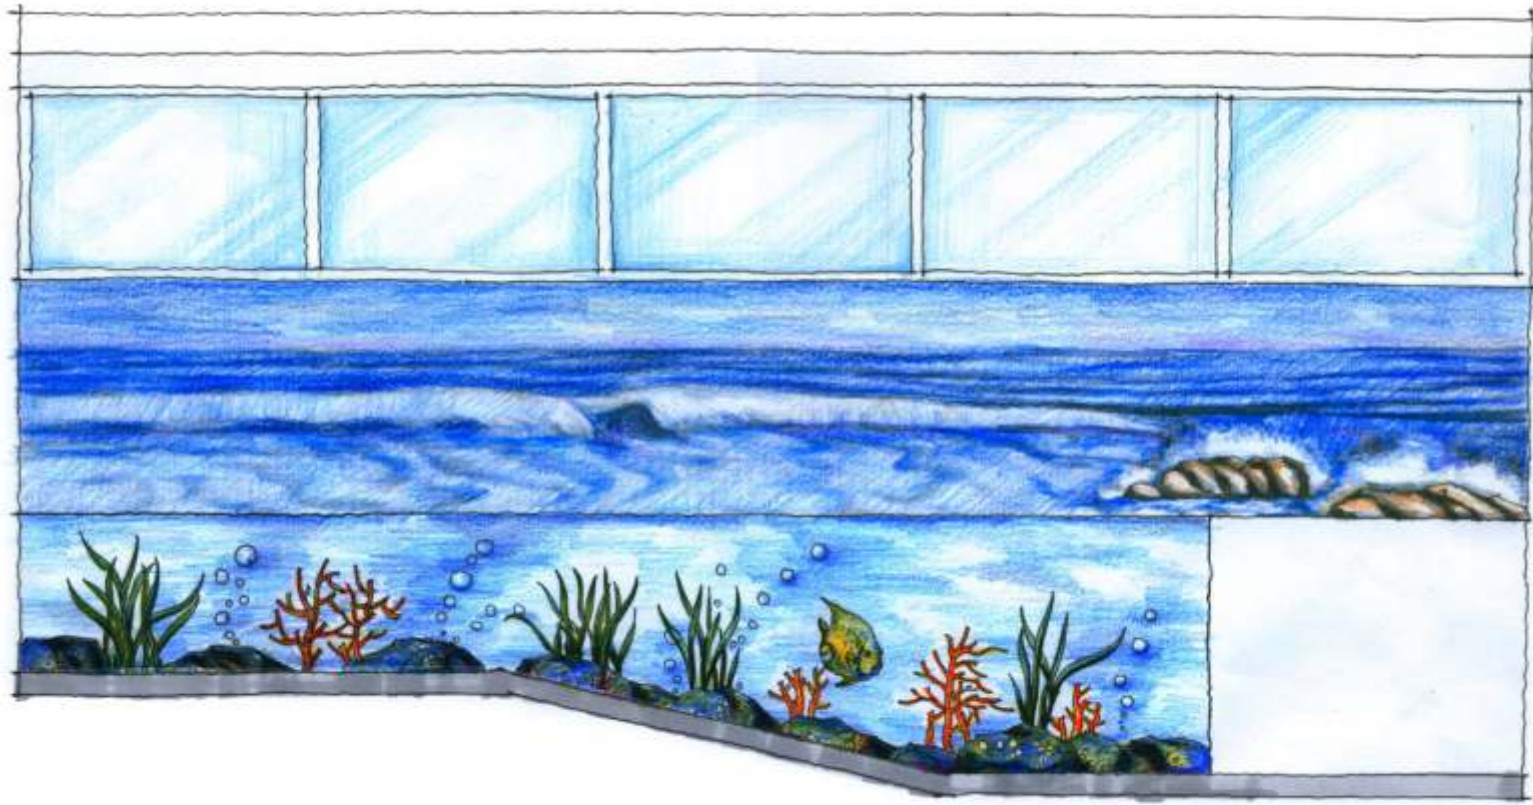

Hotel Outdoor Large Mosaic Puzzle Art Swimming Pool

Because of the mosaic area of the swimming pool is large, also with an irregular shaped. The positioning of the mosaic puzzle and The boundary line of a circle is the key point of the design. We designed the connection between the wall and the bottom of the irregular shaped pool to a certain arc. The mixed-color mosaic circle edges are connected with arc surfaces to ensure the accurate positioning of the mosaic puzzles and circle edges of the on-site construction to the greatest extent.

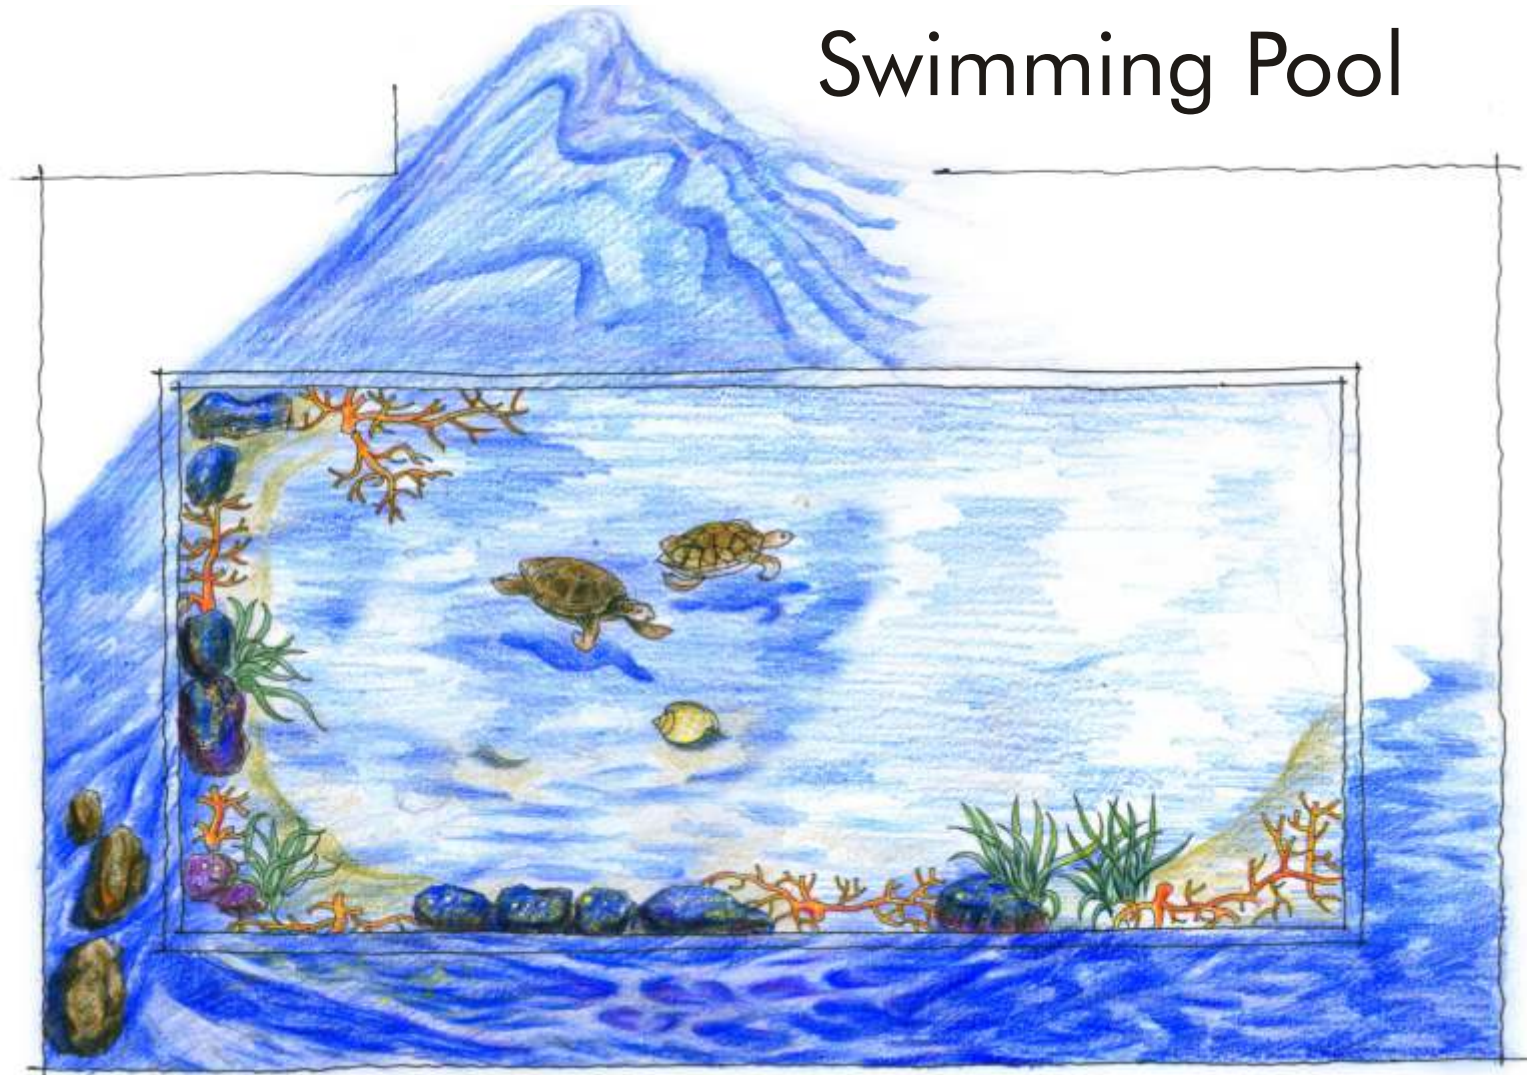

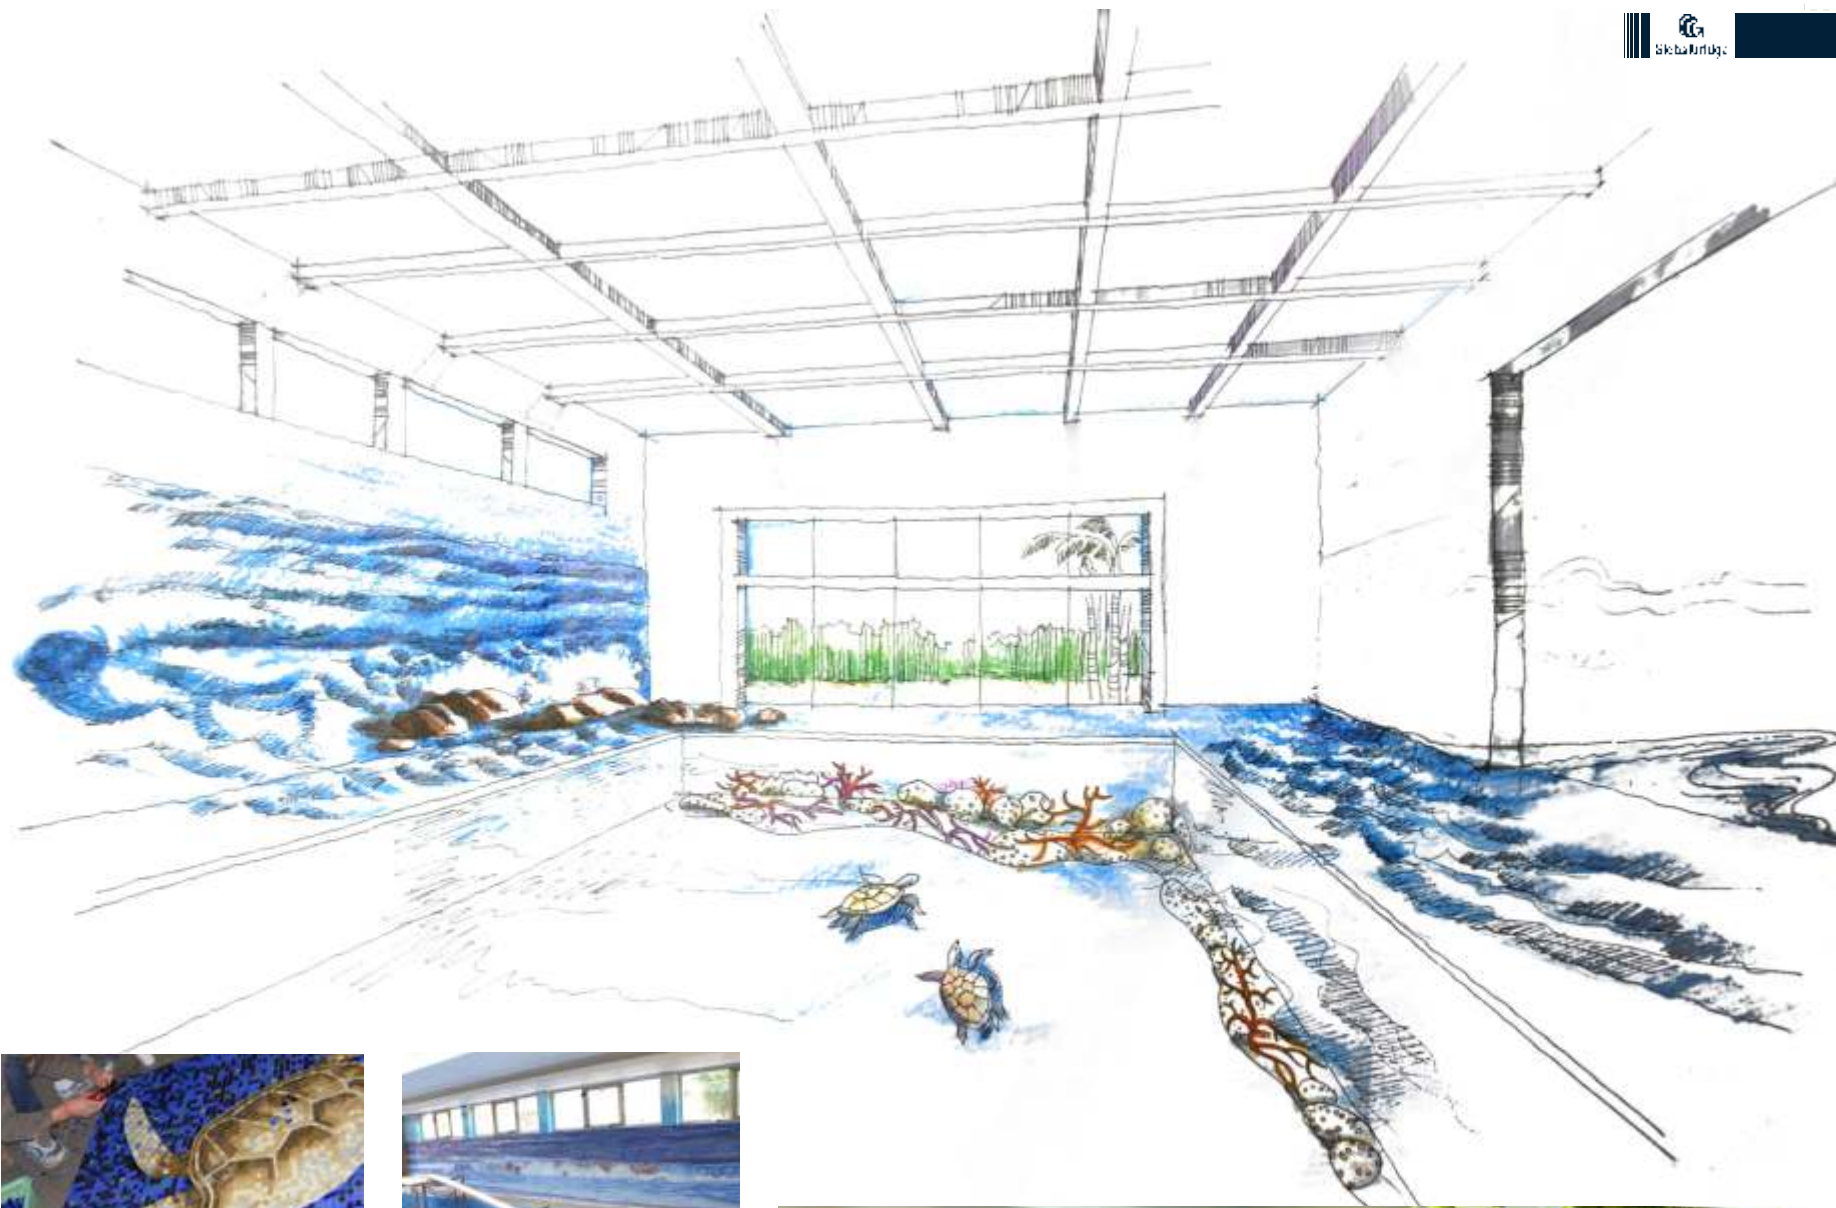

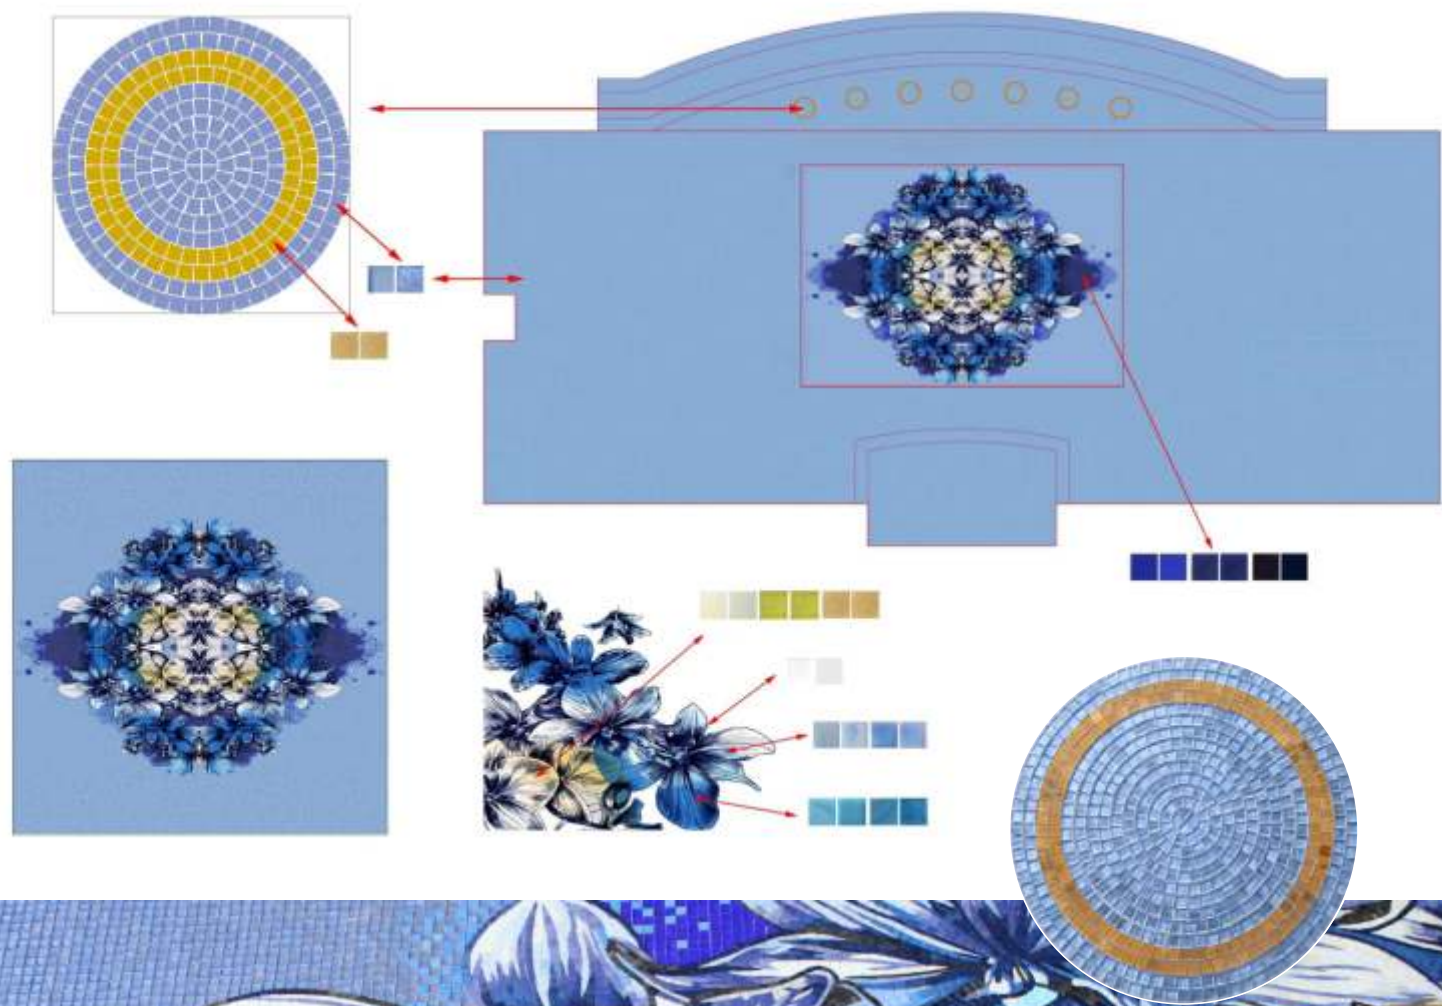

Villa Mosaic Swimming Pool

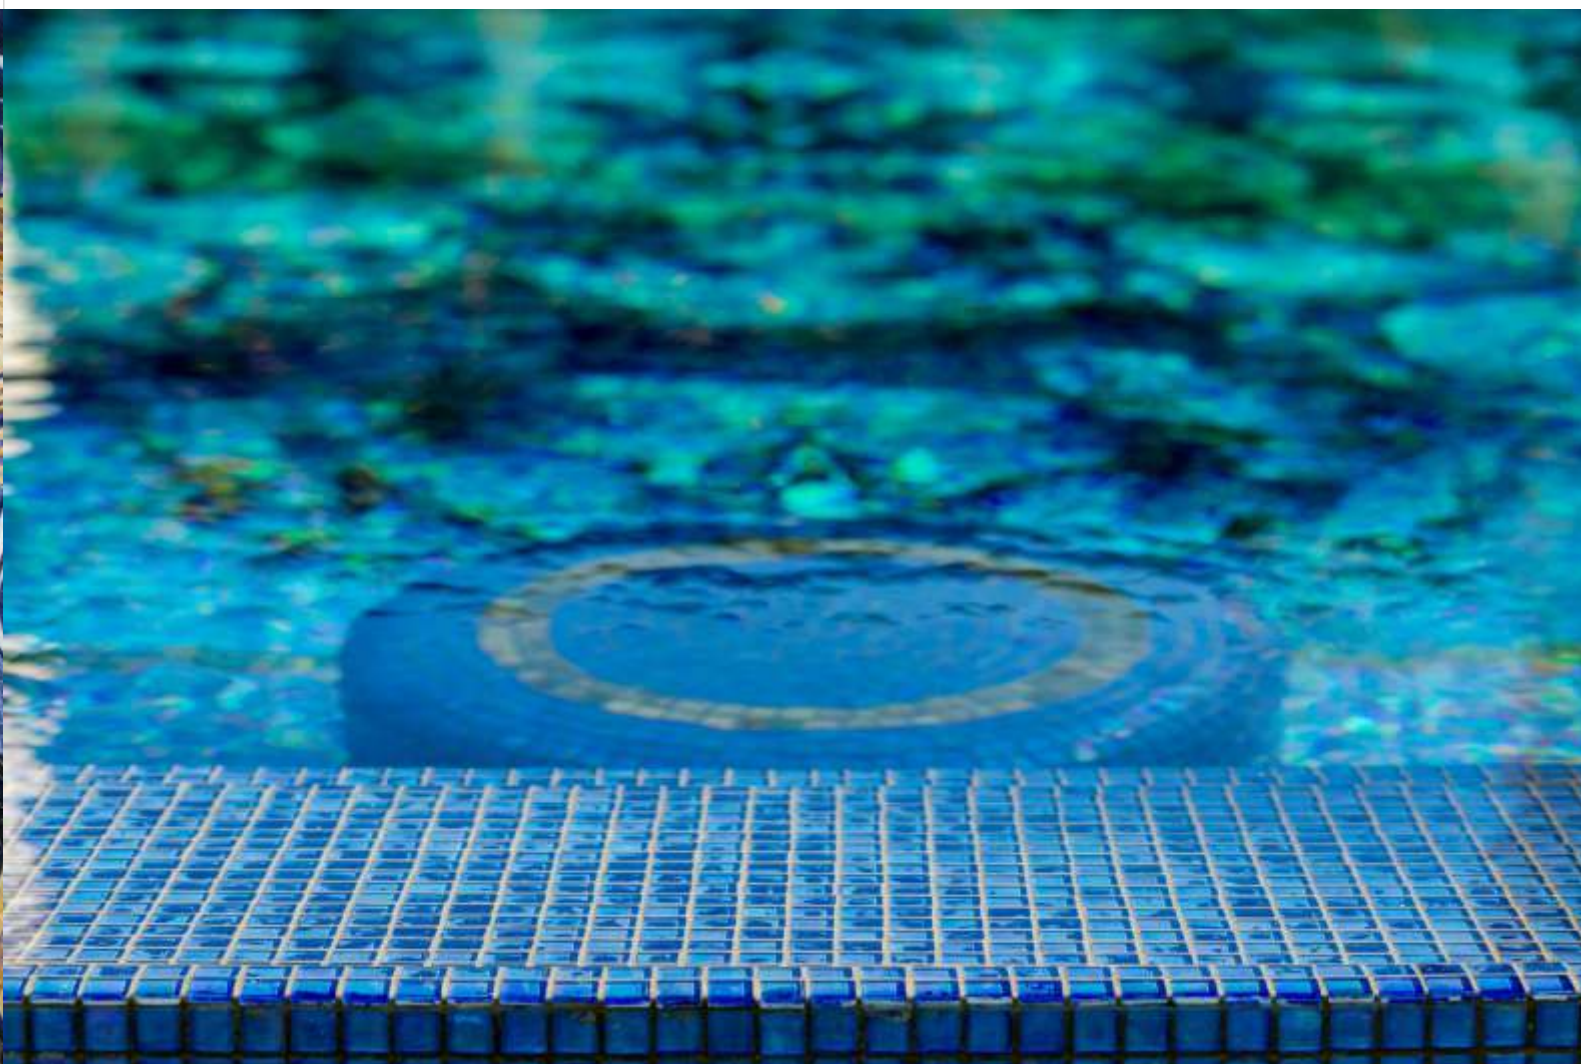

The highlight of the mosaic design of this swimming pool is the overall mosaic design of the wall, indoor parts of the pool in the house. Scenery as the waves coming from the wall, the coral seagrass and the playful turtles scattered in the swimming pool, waves flowing into the house from the swimming pool. It is a very interesting panoramic mosaic art swimming pool with mosaic hand-cutting and matrix arrangement.

Adhesive Suggestions for Mosaic Decoration of Swimming Pool Lamps

Swimming Pool Mosaic Design

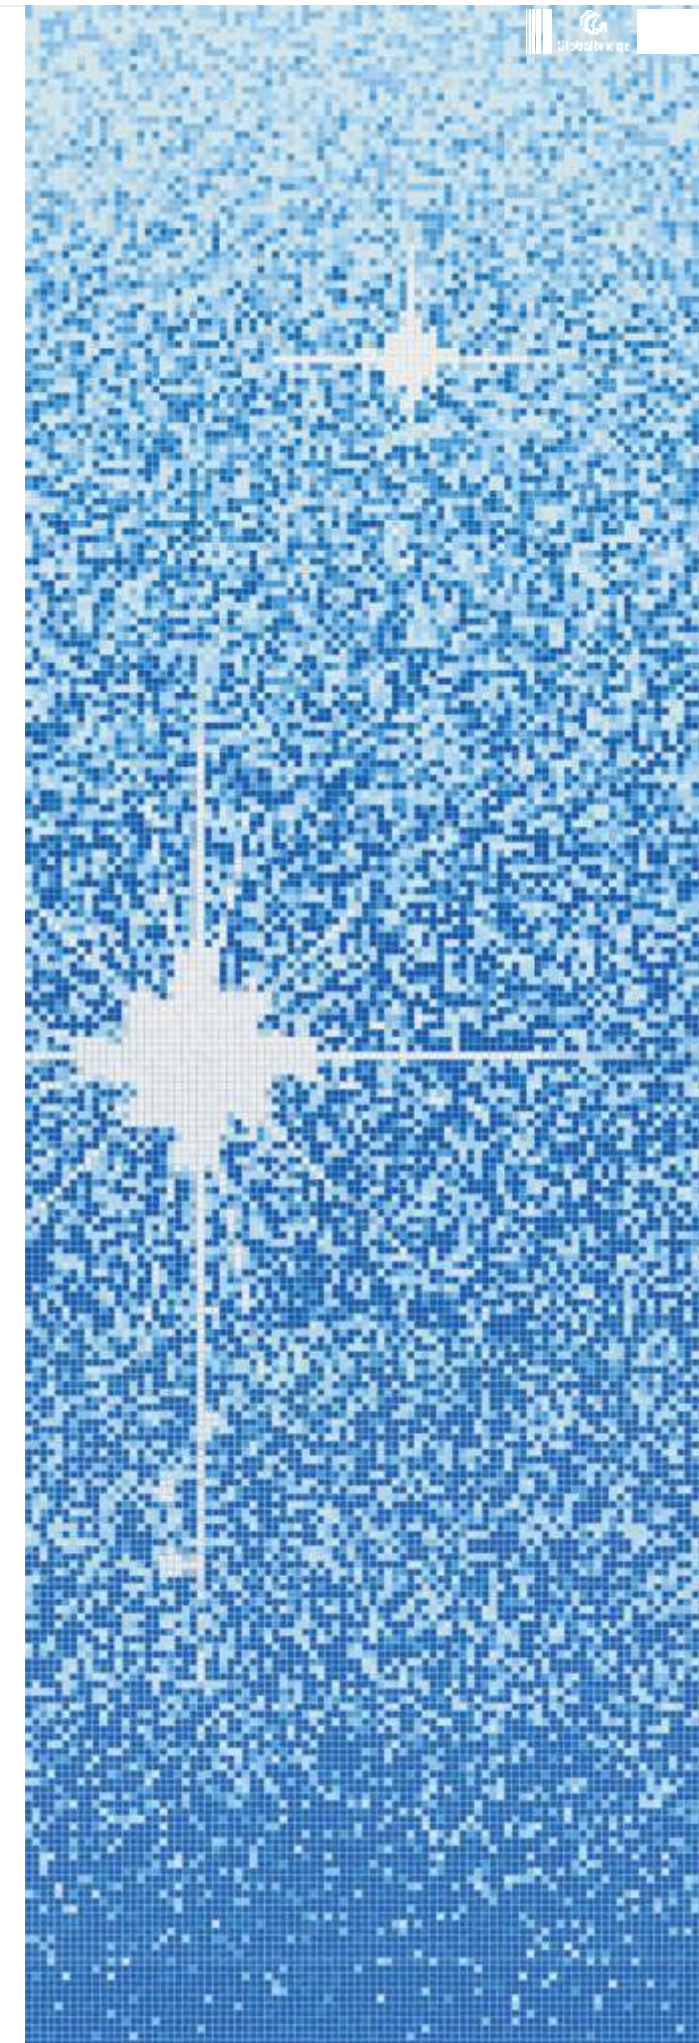

Swimming Pool Mosaic Design

For the arc-shaped small pond or ladder in the swimming pool, the mosaic construction adopts cutting the mosaic into strips, cutting half of the stitched net or paper, and performing the brick arrangement and pasting one by one, which is beautiful and does not need to be aligned. It is a good choice.
